Compare...b c. rel 100 Chi & Rock 1 Railross pf'd... | Danier | D SALES FROM 2 TO CLOSE OF BUSINESS,

SATURDAY, Sept. 7-P. M The week closes in trade circles upon a reasonably active movement in all the merchandise mar-Kets-a condition due, in large measure, to the delightful weather, which has imparted new life and activity to both buyers and sellers. In many of the leading staples there has been an advance reported, but the improve ment has not been general. A decidedly better builness has been done in breadstuffs, generally at higher prices, which, however, did not hold at the close The upward turn in groceries was somewhat retarded by the putting up of the freight tariffs on the leading trunk lines, which induced Western buyers to purchase with less freedom. A fair degree of animation was reported in dry goods, and the Fall season seems to have opened with as much activity as is ordinarily noticed. jobbers' orders have increased materially, the indications of cooler weather inspiring interior buyers to fill up their stocks to meet the growing demand from con sumers. There has been also a quick inquiry for donestic cotton goods, with a liberal movement of stocks from both first and second hands. There has been an improved feeling in woolens, and an increased trade in foreign fabrics. The movement in cotton has exhibited much activity with an advance of a quarter for cotton on the spot, and about that on future delivery. The market closed strong on the basis of 21 c. for Low Middling. The receipts at all the ports amounted to 13,554 bales, these being the total receipts of the new cotton crop commencing September 1. The exports footed up 2,055 bales.

In financial circles there has not been any decided movement in any of the various channels, new combina-tions being retarded by some bears as to the course of money. While a somewhat active business was don rallways, the speculation has been attended with considerable feverishness and irregularity, though a strong undertone was imparted to the market which at the close lifted the list of stocks from out of the "Slough of Despond" to the high ground of strength. Gold has been at lower quotations, responsive to which, in part at least, the entire list of Government bonds weakened and fell materially, as will be seen by our comparative table. The surrent prices are the lowest for many a day, and find explanation in part from the realizings of the banks. which earlier in the season had invested their funds in these securities, pending the period of low interest rates-The decline in prices abroad is due, in connection with the depression in Consols, to the recent failure of Messrs. Lamb, Nash & Co., a heavy house engaged in the India trade, with liabilities approximating £200,000. This following closely upon the heels of the Messrs. Gledstanes & Co.'s failure and the expectation of other embarrassments. served to give the London market a heavy and uncomfortable appearance. Still the Bank of England rate of discount rules at 32 per cent, the bullion being reduced £30,000. The Bank of France lost during the week 8,333,000 francs.

Foreign Exchange has continued depressed by the very tiberal offerings of borrowed bills, and in some quarters it is thought that as much as five or six million pounds sterling have been placed this season. In view of the prospective large crops to come forward there should be a very heavy export, in order to warrant this extensive kite flying. Gold has been inactive, and declined from 1131 to 1121, the decline flading partial explanation from this cause. In view of the absence of any speculative interest in the market the decline under the weakness of sterling is natural. There are certainly no indications of clique maclose to-day there firmer feeling. Money has ruled easy during the week, and the rates on call were chiefly at 4 and 5 per cent. with 8 and 7 as the extreme range. Loans on time are difficult, and command sharp rates, and the explanation of the low quotations on call is found in the desire of lenders to keep their capital well in hand in order to be readiness to meet the expected drain westward. The market for commercial paper is also dull, the banks being unwilling, even if able, to take any long lines of paper, while the full extent of the currency movement is unknown. We hardly expect, in view of these precau- tion in gold stiffe

tions, an inordinately stringent market, as we are of the opinion the accession of foreign capital here would non tralize to a certain extent the effect of the Autumn out

On the Stock Exchange, during the week now closing there was a moderate degree of animation and activity accompanied by several interesting features. While the money market has been rather easy than otherwise, the money market has been rather easy than otherwise, the course of speculation in stocks has been steadily downward, and it was not until the close that anything like a reaction took place. The week opened with a decline of 43 per cent in Pacific Mail, under a free pressure of "long" stock, occasioned by the burning of the steamer America, one of the best ships of the line. This was followed by a general strinkage of stock values; but the most decided break occurred yesterday, when prices, entside of Pacific Mail, showed a decline of 1 to 34 per ce. of rom the highest quotations of the week. Wabash touched 71, North-West Common 723, Western Union 763, and the remainder of the list in proportion. The entire list made a recovery, however, under the leadership of New-York Central, speculation in which received impetus York Central, speculation in which recent of from the revival of the scrip dividend stary. The fresh advance to day above the point of par would seem to justify a belief in the story, and indeed some of the gossips say that the dividend will be aunounced as early as next Monday. Eric was noticeably quiet. The price fell off about two points early in the week, but the stock has since partially recovered. One of the peculiar events of the week was the depression existing among that class of investment stocks which are rarely effected materially by the fluctuations in the speculative shares. But this week shows a sharp decline, with free sales, as will be seen by our usual weekly comparative table. To-day there was a quiet feeling in the radways outside of New-York Ceutral, which formed the conspicuous feature of the exchange, with the movements in which the other shares partially sympathized. The buying was vigorous at the send-off, the third partial was the send-off. the takings carrying up the price from 99% to 100%, the other shares strengthening to a less extent. After meridian, and noticeably when the unfavorable features of the Bank Statement became known, a desire to realize the late advance sent Central back a point or so, while the entire speculative list was pressed quite freely by parties who did not care to allow Sunday to pass over on outstanding contracts. But still later a reactionary movement set in which carried back prices, the market closing strong. Other than the reports and rife rumors about the expected dividend on Central, the street was devoid of gossip. The investments showed little inclination to pick up, Delaware, Lackawanna and Western selling at 99½ 2992, and N. J. Central at 1002 21042. Harlem fetched 114 and Panama 132. The trade in Pacific Mail and Western Union Telegraph was large, but in the other miscellaneous shares there was comparatively nothing doing. Consolidation Coal sold at 42. In Express shares, U. S. was firm at 82@821, a small sale of Adams being reported at 95. The opening, highest, lowest, and closing prices of stocks sold to-day were as fol-

Gold opened weak at 1123, and later advanced to 1133 on the heaviness of the London market and the heavy tecrease of specie shown in the bank statement. The rates paid by borrowers for the use of gold were 1-16, 3-62, and 1-32 of one per cent until Monday. The Assistant Treasurer redeemed in called bonds \$12,000, making a total of \$69,957,000, disbursing \$86,000 in cein interest on the public debt. The day's business at the Gold Echange Bank was as follows : Gold cleared, \$35,436,000; gold ba ances, \$1,621,570; currency balances, \$1,873,476. The fol-

The closing rates of money on call were 3 and 4 per cent, the demand all day having been fully supplied at and 5, stocks lending at 2 and 3 per cent for use, and in one or two cases flat. Discounts are quiet. The bank statement was an unfavorable return, reflecting a decrease in all the items save specie. The deposits were down \$5,420,000, the aggregate of the decrease in loans, specie, and greenbacks being only \$4,470,800. The deficit of a million is accounted for on the supposition of that amount of nationals sent abroad. The Treasury movements will pretty nearly account for the decrease in specie, the coin novement of the week covering the disbursement of a million on account of the regular gold sale; \$982,526 on ecount of interest on the public debt, and \$74,000 in redemption of called bonds, the payments on account of customs footing up \$3,666,746, and the exports, \$391,600. The banks now hold in surplus over legal reserve-consisting of gold, legal tenders, and three per cent certificates-only \$2,232,525, a decrease of \$1,908,875. The following table shows the condition of the New-York City banks

dinnesota Rairoad for the week ending August 31 were \$22,777 62; for month of August, 1872, \$23,420 03; for month of July, 1872, \$73,833,55; increase, \$19,586 48. The earnings of the St. Louis and Iron Mountain Rail-

road for the month of August were: 1872, \$194,150; 1871,

\$131,489 85; increase, \$62,660 15. January 1 to August 11: 1872, \$1,434,523 16; 1871, 1,004,776 06; increase, \$429,747 10. The announcement of Messrs. Fisk & Hatch, on behalf of the Chesapeake and Ohio Railroad Company, that all the remaining portion of their First Mortgage bonds are offered for proposals, will attract the attention of investors and capitalists. The latest advertised price of the Company for these bonds has been 94 and accrued interest, the loan having been originally placed on the market at 90 and interest, and advanced from time to time to 94. While, as will be seen by the announcement referred to, its negotiation at popular sale has been a great success, at prices which seemed high in comparion with many other bonds offerer for sale, it is probable that some to whom the bonds have appeared in all other respects a very attractive avestment have been deterred from buying them by the greater temptation in price and interest which other well-recommended ans advertised for sale have offered. The plan to such an opportunity of making a scaled offer at a price which they may feel disposed to pay for the bonds, subject, of course, to acceptance or non acceptance upon the opening of the bids. Such offers, if below the advertised price, could not, of course, have ocen heretofore entertained or considered by the Company or their financial agents. The original amount of he loan has already been fully disposed of, with the exception of about \$500,000 of the smaller denominations and the amount now offered for sale is made up principally of bonds which have been necived by the Company in exchange for debenture bonds together with a limited unt repurchased from time b time. The very high credit of the Company, the character of the men comprising its Board of Directors, wht are responsible for its management and success, the scat importance and value of the road and its facilities for commanding a large and profitable traffic are will known, and on the eve of the successful completion of the work and the inal closing of the loan, will doubtless attract a large

number of proposals. The Philadelphia stock market is dull. Pennsylvania to 106 : Philadelphia and Eric Railrad, 26: Reading Rall

road, 574; Pennsylvania Railroad, 584. Gold, 1123. A good demand is reported for the Chicago and Canada Southern first mortgage 7 per cent bonds at 90 and accrued interest, nearly \$700,000 having been taken since the loan was placed on the market, sout two weeks ago. The prospects for the loan are thought by the agents to e as good as those of the Canada Southern, which was of the same amount, and which wis closed out in less than 90 days. The attention of the avesting public is invited to the advertisement of Messra Winslow, Lanier & Co. and Messrs. Leonard Sheldon & Foster, the agents for the sale of the bonds.

Of the cotton movements through the past year, The Commercial and Financial Chronicle mys: Commercial and Financial Chronicle says:
Our statement of the cotton crop of the United States
for the year ending September 1, 1872, will be found below. It will be seen that the total crop this year reaches
2,974,351 bales, while the experts are 1,287,314 bales, and
the home consumption 1,137,540 bales, leaving, a stock on
hand at the close of the year of 54,521 bales. Our tables,
showing the whole provement for the twelve months, are
as follows: The first table indicates the stock at each
port Sept. 1 of 1872 and 1871, the roceipts at the ports for
each of the last two years, and the export movement for
the past year, (1871-2) in detail, and the totals for 1870-71.

BANKING AND FINANCIAL. ANNOUNCEMENTS FOR PROPOSALS.

OFFICE OF FISK & HATCH, BANKERS AND) FINANCIAL AGENTS OF THE CHESAPEAKE AND OHIO R. R. Co., NEW-YOEK, Sept. 9, 1872.

By direction of the President and Directors of the Chesapeake and Ohio Railroad Company we offer, for proposals, all the remaining balance of their FIRST MORTGAGE SIX PER CENT GOLD BONDS, NOW amounting to \$2,923,700. Proposals must be accompanied by a deposit of 5 per cent, and will be received up to, and including Monday, the 16th inst., the Directors reserving the right to reject any proposals which it may not be for the interest of the Company to accept. The 5 per cent deposit will be applied toward the payment, in case of accepted bids, and returned to those whose proposals are not accepted.

The President of the Company, Mr. C. P. Hunt-INGTON, is well known as the Vice-President of the CENTRAL PACIFIC RAILROAD COMPANY, and the same energy displayed in the management of that corporation, and to which its remarkable success is so largely due, is being put forth in the CHESAPEARE

The Board of Directors is composed of probably as strong and able men as were ever associated together to carry out a great enterprise. Among them are the following well-known New-York merchants: Messrs. A. A. Low, Wm. H. ASPINWALL, JONAS G. CLARK, DAVID STEWART, WM. WHITE-This road will extend from Richmond to the heart

of the great West, at a point on the Ohio River 313 miles below Pittsburgh, where it will at once connect with 12,000 miles of river navigation, and soon by connecting roads with the whole great system of Western railroads, thus giving a short, direct, and easy grade outlet to the millions of people and inexhaustible products of the West to the Atlantic Coast, and in return furnishing them with the manufactures of the East, and cheap coal and cheap iron from along the line of the road. Its traffic must be immense. It will cost, fully equipped, upward of \$30,000,000. Of the whole length of the line, 427 miles, at this date 300 miles are completed; the grading is nearly done on the remainder, the iron is being rapidly laid, and during November next it is expected trains will run through to the Ohio

The Western end, 200 miles, will be nearly all laid with steel rails, the bridging all iron, and the masonry first-class in every respect.

The total amount of these Bonds is \$15,000,000. The amount sold by us from the date of bringing out the loan is \$14,489,600.

The amount now offered by us is made up as fol-Unsold Balance of Lean as above...... \$510,400

Repurchased and received in exchange for Debenture Bonds of the Company...... 2,413,300 Leaving Balance subject to proposals .. \$2,923,700

Should the Proposals exceed this amount, a proper award among the accepted proposals will be made. An opportunity for Savings Banks, Insurance Companies, Estates, and Investors to get so good a Bond on a great road, at a moderate price, is rarely of-

The bonds are issued in denominations of \$100, \$500, and \$1,000; either Coupon or Registered; Interest payable May and November, both principal and interest payable in New-York City, in U.S. Gold Coin. The accrued interest from May 1st will be added to all accepted proposals.

Proposals should be addressed to

FISK & HATCH, Financial Agents, Chesapeake and Ohio R. R. Company.

ST. JOSEPH AND DENVER CITY RAILROAD COMPANY'S

FIRST MORTGAGE BONDS are being absorbed by an increasing demand for

Besides being the obligation of a wealthy corporation, composed of men of experience and high-toned commercial integrity, they are secured by a first mortgage on the road, revenues, land grant, franchise, and equipments, combined in one mortgage, and are readily negotiable both in the markets of

this country and Europe. A liberal sinking fund provided in the mortgage deed must advance the price upon the closing of the loan. Principal and interest payable in GOLD. Interest at eight (8) per cent per annum, payable semi-annually, free of tax. Principal in thirty years. Denominations, \$1,000, \$500, and \$100 Coupons or Registered.

Price 974 and accrued interest in currency, from August 15, 1872. Maps, circulars, documents, and information fur-

Trustees, Farmers' Lean and Trust Company of

New-York. The diminished quantity of these Bonds for sale, and the increased demand absorbing them, warrant the belief they will soon be sought for at an advance considerably above the present subscription price at which they can now be had through the principal Banks and Bankers throughout the country, and from the undersigned, who unhesitatingly recom-

mend them. TANNER & Co., Bunkers, No. 11 Wall-st.

INVESTMENTS. We continue to sell at par, adding accrued inter-

est, the FIRST MORTGAGE GOLD BONDS of the NORTH-ERN PACIFIC RAILROAD COMPANY. On the completion of this season's contracts there will be FIVE HUNDRED AND SEVENTEEN miles of the main line of the Road in operation, uniting Lake Superior with the Missouri River, and securing the large traffic of the North-West. This amount of road also entitles the Company to Ten Million Four Hundred Thousand Acres of Land, located in Central Minnesota, Eastern Dakota, and in the Columbia Valley on the Pacific Coast. The bonds are secured by a first mortgage on the Road, its Traffic and Franchise, and on the entire Land Grant received from the Government. The rate of interest is Soven and Three-tenths, Gold, equivalent to about Eight and a Quarter Per Cent in Currency. Believing the security to

be ample, and the rate of interest satisfactory, we amend these bonds as a desirable investment. Holders of United States 5-20s and high-priced corporate securities may materially increase both their principal and their interest income by exchanging JAY COOKE & Co., for Northern Pacifics. JAY COOKE & Co., New-York, Philadelphia, and Washington.

The CHICAGO, DANVILLE AND VINCENNES RAIL-POAD is earning a dividend upon its stock, beside interest upon its bonds. But a small amount of the First Mortgage 7 Per Cent Gold Bonds remain unsold. These we offer for the present at 90 and intereat. Apply in person or by mail to

W. B. Shattuck & Co., Bankers, No. 23 Nassau-st., New-York.

THE MARKETS.

| Continued | Cont the current high prices, has prevented the silling of many enfers. There has been some inquiry for forward delivery, but challer generally have been spart in their views, and few sales have been made. New four has been taken by the trade more readily, as the condition is more satisfactory, though as yet our supplies of New are moderate. Millens as the West fand farmers nawling to sell, and it is very evident that as thrashing proprises, they will be slow to part with their wheat, the yield being below the general expectation; these remarks apply entirely to Winter Wheat. Our stook of Choice Minnessota Ratras is extremely limited, and in these we have had a decided advance, and prices at the close, in the absence of anything like a desirable assortment, are uncertain. New Spring Wheat Extras are source and wanted. We have had a good demand for Good and Choice Shipping Extras for the British Frevinces and the West indies, and a large business has been done with our city millers at higher prices. No. J. and Superfine have been in fair domain for shipment, especially the latter: these have finctuated, and close heavy. Our stock of Old Family Extras a very light, and these have been fair domain for shipment, especially the latter: these have finctuated, and close heavy. Our stock of Old Family Extras a very light, and these have been well sustained, with a gradually diminishing supply. The exports of the week are 18,350 biles, against 19,435 biles the corresponding week last year. To-day the market is tame and the demant only limited. Good Shipping Extras scarce and is fair demand, Old Family steady; New more pleaty and quiet, and Common heavy. At the close the market is dual and tance; Old Shipping and Family Ritras without important change. We quote: "45 925 60 Olnie, Ind., & Hi. Sup. 45 00 29 60 No. 2 3 50 Cho and Mich.
